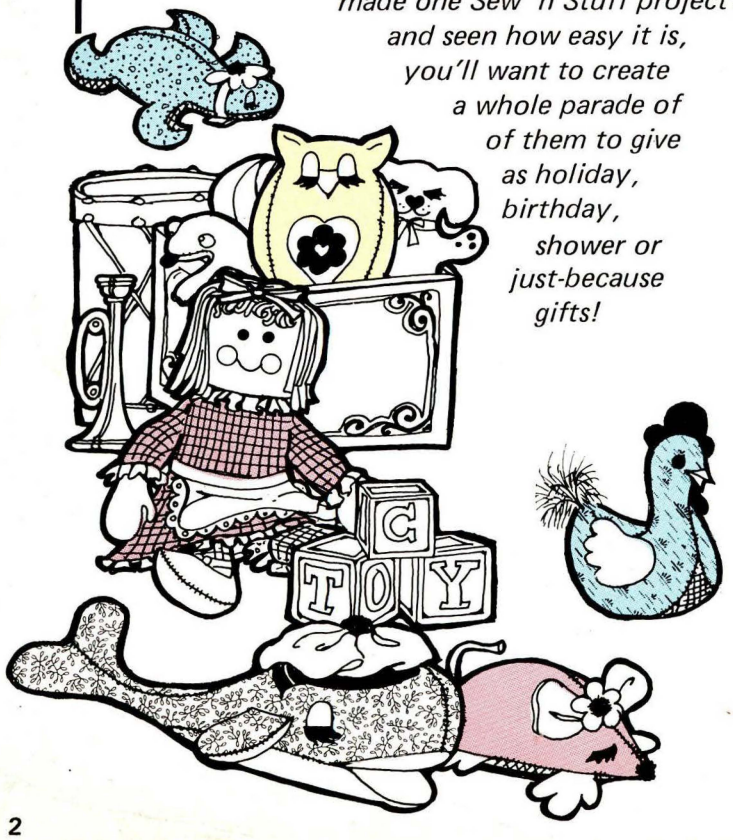
Here They Come!

Sound the cymbals, beat the drums, tootle the old kazoo! Let's start the show — Sew 'n Stuff toys have come to town! Here they are, parading into the nursery, peeping out of a toy box, hopping right out of your sewing machine, straight into a loving toddler's heart.

What a parade it is! Colorful Merrie Mouse, sassy Harriet Hen, wise old Ollie Owl, funny Fred Frog, nautical Willie Whale — and look, isn't that Terri Turtle bringing up the rear? They're all here for you to sew 'n stuff, lots of cute animals, a charming little doll, and a very special machine-quilted pillow for that precious cuddler in your life.

From the pattern insert in the centerfold of this book, you'll cut simple pattern pieces that can be stitched up in no time. Add a little stuffing, some tender loving finishing touches, and before you know it, you'll be ready to present a most welcome surprise to someone you love. After you've made one Sew 'n Stuff project and seen how easy it is, you'll want to create a whole parade of of them to give as holiday, birthday, shower or just-because gifts!



GENERAL INSTRUCTIONS FOR PATTERNS AND CUTTING

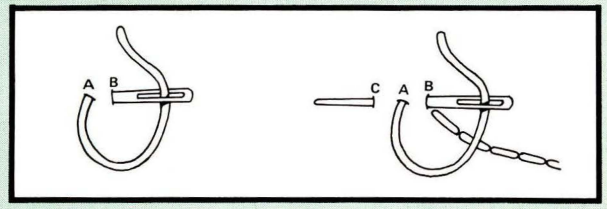
Since we like to give you full-size patterns, we included a pattern insert in this book.

1. Carefully remove the insert from the book.
2. Open the insert and trace the patterns off on tracing paper. This allows your insert sheet to be kept intact.
3. Identify the pattern pieces.
4. Pin the tracing paper pattern to the fabric and cut on the lines.

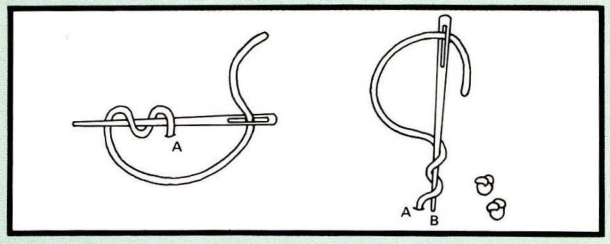
NOTE: When using gingham or other thin fabric, cut an extra piece of old sheeting or muslin to use as a lining. Pin the lining to the wrong side of the fabric and use as one piece.

We recommend that you use a calico print for the body and a matching gingham or solid cloth for the bottom of your animal. Colors are suggested only, so use any color scheme you desire.

EMBROIDERY STITCHES USED IN THIS BOOK



Back Stitch: Bring needle up at point A. Place needle in at B and out at C. Begin next stitch at C and go back again to A. AB should equal CA.



French Knot. Bring thread up at A. Hold needle in right hand and wind thread around it once or twice. Hold remaining thread in left hand and pull it taut around the needle. Put needle back in fabric (point B) close to A and pull thread through to back.

Author

BETTY MORSE, of Tiburon, Calif., has artful talents and a delightful imagination which loves to design stuffed calico and gingham animals.

While she keeps the patterns very simple each animal is bursting with a charming personality!

Betty hopes you'll enjoy making these animals as much as she enjoyed sharing them with you.

11. Glue the eyes, nose, flower and pompon into place.

Quilted Pillow

The pillow size is determined by the selection of the fabric design. Select a design and fabric which lends itself to quilting. Drapery materials with ducks, clipper ships, flowers, jungle animals or paisley are excellent to use. The fabric for the pillow shown was cut from a bedsheet. Cording, ruffled material or gathered eyelet may be used around the edge.

MATERIALS

Fabric with design for pillow front
Plain fabric for pillow back
Fabric for ruffle, see step 4
Polyester fiber or polyurethane fill
Polyester batting

DIRECTIONS

1. QUILTING PILLOW FRONT: Cut pillow front with a 1/2" seam allowance on all four sides.

2. Cut a piece of muslin or old sheeting the same size as the pillow front. Place a thin layer of batting between the fabic and muslin. Machine baste all pieces together around the edge.

3. Hand or machine quilt around the design. If you want more padding in certain areas, slit the backing and add more stuffing. Then slipstitch closed. This technique is known as "Trapunto".

4. RUFFLE: Cut a strip of fabric twice the outside measurement of the pillow and double the desired ruffle with, plus a 1/2" seam allowance.

5. Fold ruffle in half lengthwise with right sides together. Stitch a 1/4" hem at each end. Turn to the right side. Using the longest stitch on the machine, stitch along the cut edge through the double thickness.

6. Gather the ruffle to fit the pillow. Pin to the right side of the fabric, raw edges together, folded edge in. Machine baste to the pillow front.

7. PILLOW BACK: Cut a piece of fabric the same size as the pillow front. Place right sides of front and back together. Stitch front to back leaving a 6" opening at the bottom for the stuffing.

8. Turn right side out. Stuff firmly. Turn under seam allowance and slipstitch the opening closed.

Here's a couple of irresistable softies - - - reaching out to be hugged and toted off to bed!
